

Data Analysis- Quantitative and Qualitative

The primary aim of the workshop "Data Analysis - Quantitative and Qualitative" is to equip participants with the essential skills and knowledge to effectively analyze data using both quantitative and qualitative methods. The workshop aims to ensure that participants can confidently select appropriate analytical techniques, interpret their findings accurately, and apply these insights to draw meaningful conclusions in their research. This training is designed to enhance the participants' ability to handle data rigorously and to produce valid, reliable, and actionable results in their respective fields.

This workshop aims to equip participants with the comprehensive knowledge and skills needed to successfully complete their thesis research and writing, ultimately leading to a well-crafted, academically rigorous thesis.

Workshop Duration: 5 Hours

Fees: INR 1000/- per person

Certificate will be Awarded on completion of the workshop

Objectives

Solid data analysis
Qualitative analysis exploration
Interpret analysis results

Choose suitable methods
Conduct statistical tests

Quantitative techniques introduction
Data preparation understanding
